**A description of the workshop content can be found on the back of this flyer. More workshop dates are available on request or on [www.joimax.com/workshops](http://www.joimax.com/workshops).**

### General information

---

#### Target group

Physicians from different disciplines experienced in spinal therapy, interested to learn the latest endoscopic minimally invasive surgery techniques for the complete spinal column. Please understand that course participants must meet preliminary criteria.

#### Course Language

International workshops are held in English. For specific groups courses can be held in the participants' mother tongue.

#### Course Fee

**2-day workshop:** € 1.450 per participant (incl. applicable VAT)

**1-day workshop:** € 750 per participant (incl. applicable VAT)

The fee includes workshop materials, refreshments and the evening event (2 day course).

#### Accommodation

We would be pleased to give you some hotel recommendations. You will benefit from special joimax® rates. These rates are available until 4 weeks prior to the event.

#### Certification

CME credits will be requested for all workshops. Points are announced in the course agenda. If you need any further information please contact us.

**Fax: +49 (0) 721 255 14-920 Mail: [info@joimax.com](mailto:info@joimax.com)**

## Excerpt of our General Terms and Conditions

### 1. Workshop Registration

Registrations for the joimax® Training Program need to be in writing with this application form or online ([www.joimax.com](http://www.joimax.com)). The decision on a potential participation is done on order of receipt. No claim can be asserted by the applicant.

### 2. Order Confirmation and Payment

The registration will be confirmed by separate mail and/or with the written invoice at the latest and represents a mutually binding obligation. The invoice is to be paid 2 weeks after receipt at the latest.

### 3. Cancellation of Workshops

No cancellation fee applies if cancelled at least one month before the workshop. If cancelling within 2-4 weeks prior to the course, a 50 % fee is charged. If cancellation occurs less than two weeks prior to the workshop, the full workshop registration fee is charged. Please note that cancellations must be submitted in writing.

### Endoscopic Spine Surgery Deherniation and Decompression (2 days)

⚠ For surgeons only

#### Level 1-2

##### Endoscopic treatments of the lumbar and lumbosacral spine

- Transforaminal endoscopic access to the spinal canal for the treatment of lumbar disc: TESSYS<sup>®</sup> herniations and minor foraminal stenosis
- Interlaminar endoscopic access for disc herniation especially at L5/S1: iLESSYS<sup>®</sup> Pro
- Demonstration of endoscopic facet joint and sacroiliac joint treatment: MultiZYTE<sup>®</sup>

##### Target Group

The course is suitable for spinal surgeons with and without initial experience in endoscopic surgical procedures.

#### Level 3-4

##### Endoscopic treatments of the lumbar, lumbosacral, thoracic and cervical spine

- Transforaminal and interlaminar access for lumbar and cervical decompression (migrated disc herniations, foraminal and recess stenosis) at the lumbar spine and herniations at the thoracic spine: TESSYS<sup>®</sup>, iLESSYS<sup>®</sup> Pro and iLESSYS<sup>®</sup> Delta
- Cervical decompression: CESSYS<sup>®</sup> Dorsal and CESSYS<sup>®</sup> Ventral
- Transforaminal and interlaminar endoscopic and percutaneous stabilization: EndoLIF<sup>®</sup>; Percusys<sup>®</sup>

##### Target Group

The course is suitable for spinal surgeons with experience in endoscopic surgical procedures.

### Endoscopic Techniques for Pain Therapy (1 day)

⚠ Pain physicians must meet preliminary criteria

#### This workshop will provide profound theoretical and practical knowledge on endoscopic pain therapy.

- Facet and sacroiliac joint treatment: MultiZYTE<sup>®</sup> Facet and Sacroiliac
- Interventional lumbar and cervical nucleus therapy: intENTS<sup>®</sup>

#### User Meetings Level 2-4 (2 days)

#### User meetings shall allow individual deepening of knowledge and experience achieved during former joimax<sup>®</sup> workshops or own surgical cases.

- Consolidate transforaminal and interlaminar technique.
- Discuss and practice access strategies and suitable instruments for varying and extraordinary pathologies and levels.
- Gain or improve knowledge on implants: Percusys<sup>®</sup> and EndoLIF<sup>®</sup>.
- Use navigation tools and latest anatomical simulators.

The level will be chosen and announced appropriately.  
Premise: Successful completion of a joimax<sup>®</sup> Workshop.

#### Workshop Conduction

All workshops contain theoretical lectures and intense practical training. Access planning and training of surgical techniques as well as handling the instruments and endoscopic orientation are trained on anatomical specimen, supported by preparative training on sawbones and simulators.

The workstations are equipped with C-arms, joimax<sup>®</sup> endoscopy towers and surgical instrumentation. X-ray protection as well as scrubs are provided. There are 2 up to 5 workstations per course with 4-5 participants per station.
