Workshop Schedule USA

joimax[®] Training Program Workshops 2020

The following dates are available for the year 2020. Please mark the appropriate date, complete and sign the form and email or fax it back to us.

Fax: +1 949-859-3473

Mail: customerservice@joimaxusa.com

Level 1 / Endo-Facet-SI-Discogenic Pain Management (1 days)

January 23 rd	Irvine, CA	<input type="checkbox"/>
June 4 th	Irvine, CA	<input type="checkbox"/>
November 12 th	Irvine, CA	<input type="checkbox"/>

Level 1-2 / 360° Endo-Deherniation/ Decompression Management (2 days)

January 24 th and 25 th	Irvine, CA	<input type="checkbox"/>
February 21 st and 22 nd	Houston, TX	<input type="checkbox"/>
April 17 th and 18 th	Irvine, CA	<input type="checkbox"/>
August 21 st and 22 nd	Boston, MA	<input type="checkbox"/>
December 4 th and 5 th	Irvine, CA	<input type="checkbox"/>

Level 3-4 / 360° Endo-(Stenotic) Decompression & Stabilization (2 days)

June 5 th and 6 th	Irvine, CA	<input type="checkbox"/>
November 13 th and 14 th	Irvine, CA	<input type="checkbox"/>

A description of the workshop content can be found on the back of this flyer. More workshop dates are available on request or on www.joimax.com/workshops.

General information

Course Language

International workshops are held in English. For specific groups, courses can be held in the participants' mother tongue.

Course Fee

2 days Course

\$1590 per participant, including joimax[®] scrubs and all applicable taxes.

2 days Course and personalized X-ray protection package

(X-ray protection is provided at course)

\$2990 per participant including a custom joimax[®], monogrammed gown, thyroid shield, X-ray glasses, joimax[®] scrubs and all applicable taxes. Ordering details such as sizing and monogramming will be finalized at the workshop.

Accommodation

We would be pleased to give you some hotel recommendations. You will benefit from special joimax[®] rates. These rates are available until 4 weeks prior to the event.

Payment conditions

Advance payment must be made in full prior to the course date. An invoice will be sent upon receipt of the registration form.

Payment Method (please check one)

- CHECK VISA MC
 AMEX DISCOVER

Credit Card Number: _____

Print Card Holders Name: _____

Signature of Card Holder: _____

Expiration Date (MM/YY): _____

VCode (Security Code): _____

Billing Zip: _____

Make payable to joimax[®], Inc. A credit card is required as a deposit until the check has cleared.

Orders can be faxed with credit card payment only.

Checks must be mailed to:

Participation in the event is selected as part of a training activity. There is no restriction of competition and / or statutory guidelines. I hereby accept the terms and conditions of joimax[®] GmbH (see below) and apply for the selected course (see left).

Date / Signature

joimax® Training Program Workshops 2020

Level 1 / Endo-Facet-SI-Discogenic Pain Management (1 day)

This workshop will provide profound theoretical and practical knowledge on endoscopic pain therapy.

- Facet and sacroiliac joint treatment: MultiZYTE® Facet and Sacroiliac
- Interventional lumbar and cervical nucleus therapy: intENTS®
- Application and options of the electromagnetic navigation system: Intracs® em

Target Group

Surgeons and pain therapists with experience in spinal therapy

Level 1-2 / 360° Endo-Deherniation/Decompression Management (2 days)

This workshop will provide profound theoretical and practical knowledge on endoscopic deherniation/decompression and on endoscopic facet and Sacroiliac joint therapy

 Pain therapists must meet certain requirements

- Transforaminal and interlaminar endoscopic access to the spinal canal for the treatment of lumbar disc herniations and minor foraminal or recess stenosis with various joimax® Systems: TESSYS® and iLESSYS® Pro and iLESSYS® Delta
- Demonstration of endoscopic facet joint and sacroiliac joint treatment: MultiZYTE®
- Application and options of the electromagnetic navigation system: Intracs® em

Target Group

Surgeons from various disciplines, without experience in endoscopic spinal therapy/spinal surgery and interest in learning the latest techniques of minimally invasive endoscopic spinal surgery – focus is the lumbar spine.

Level 3-4 / 360° Endo-(Stenotic) Decompression & Stabilization (2 days)

This workshop will provide profound theoretical and practical knowledge on endoscopic decompression at lumbar, thoracic and cervical spine as well as minimally-invasive stabilization.

 For surgeons only

- Transforaminal and interlaminar access for decompression at the lumbar spine (migrated disc herniations, foraminal, recess stenosis) and central herniations at the lumbar and thoracic spine with joimax® systems: TESSYS®, TESSYS® Thx, iLESSYS® Pro and iLESSYS® Delta
- Cervical decompression with joimax® systems: CESSYS® Dorsal and CESSYS® Ventral
- Transforaminal and interlaminar endoscopic and percutaneous stabilization: EndoLIF® and Percusys® Plus

- Application and options of the electromagnetic navigation system: Intracs® em

Target Group

Surgeons from various disciplines experienced in endoscopic transforaminal and interlaminar access and want to expand the spectrum of indications.

User Meetings (1-2 days)

Annual User Meetings are designed in a similar way as the workshops, consisting of a theoretical part and a practical part with training on models and human specimen, but also including the introduction of new products and technologies. (raus: sharing of difficult cases and promoting exchange of experience among colleagues.) Meet colleagues from all over the world to discuss cases, exchange knowledge and experience in a professional environment. In all courses you have the opportunity to discuss about options, but also limitations and complications, as well as how to handle those.

Workshop Conduction

During the workshop the participants shall learn how to plan and conduct the correct endoscopic access to the spine and treat disc herniations as well as to accomplish bone decompression. The treatment of endoscopic pain therapy and stabilization options are demonstrated and trained in special treatment workshops. In all courses the electromagnetic navigation system Intracs® em is demonstrated and applied. This smart navigation system is based on electromagnetic tracking of the instruments. Navigating the sensor tip makes it particularly suitable for an easy access to any spinal target. The workstations are equipped with C-arms, joimax® endoscopy towers and surgical instrumentation. X-ray protection as well as scrubs are provided. There are 2 up to 5 workstations per course with 4-5 participants per station.

Excerpt of our General Terms and Conditions

1. Workshop Registration

Registrations for the joimax® Training Program need to be in writing with this application form or online (www.joimax.com). The decision on a potential participation is done on order of receipt. No claim can be asserted by the applicant.

2. Order Confirmation and Payment

The registration will be confirmed by separate mail and/or with the written invoice at the latest and represents a mutually binding obligation. The invoice is to be paid 2 weeks after receipt at the latest.

3. Cancellation of Workshops

No cancellation fee applies if cancelled at least one month before the workshop. If cancelling within 2-4 weeks prior to the course, a 50% fee is charged. If cancellation occurs less than two weeks prior to the workshop, the full workshop registration fee is charged. Please note that cancellations must be submitted in writing.
